--

Tom was back, so everyone was here. Both Sammie and Brandon had left us to come here and were relishing this game, however Brandon was on holiday! Sammie was here and it was good to catch up with him and Martin, although I told Sammie not to score.

The line up was:

	Declan			
Josh	Aaron	Reece	Joel	
Bryn	Sam	Tom	Max	
	Lorenzo	Callum		

Substitutes: Noah & Charlie

They chipped the ball towards our box, which Aaron won and headed out. Sam picked up the loose ball and found Max left and he went down the line to Callum, who worked hard down the line to get past his defender and hit to the middle where Lorenzo and their 'keeper came together, forcing the ball out, but too fast for Bryn who it hit, and rebounded out for a goal-kick. Max won it back from their throw and he played it to Lorenzo, who was on their last man. He played it right to **Callum**, who took a touch and rifled it into the bottom left, although in fairness the 'keeper did get a hand to it **0-1**. The ref kept penalising Bryn for fouls, obviously the new Frys hard man!!! They won a throw right by the far right corner, and it bypassed four of our players, and their player hit it as he spun, from the narrowest of angles and it somehow found the corner **1-1**. Callum took a great out-swinging corner which Sam met with a powerful header and the 'keeper saved on the line. They attacked down our left and slammed a ball across just in front of goal, and Aaron managed to turn it over from about half a yard out! After about four or five fouls, the ref finally gave one, but the subtle free kick didn't work and they cleared it. Reece then got to a loose ball and fired a rocket, but it was always rising. Again their same player fouled our players, so Callum tried a high shot with the sun behind it, but it was always fading wide.

Callum threw which Sam nodded on and Lorenzo found himself near the ball with no defender on him. He got to the ball and toe-poked it, but it hit the post and they cleared for a corner. It was cleared as far as Josh, but he was closed down and they were away. Aaron slid in in our area to perfection, and then Max followed up to make it safe. Dec drop kicked to our right, but it was mis-controlled, and their player just hit it first-time without looking, and as luck had it, it was the perfect length and height to fly in just under the crossbar in the far right, giving Dec no chance **2-1**. Charlie won the ball and found Bryn who hit a lovely high cross for Lorenzo, and their player had to get there just ahead of him and head it over. They then won the ball again and attacked down their right, and as they approached the box, their player just slammed the ball, and again it was the perfect height, hitting the underside of the bar and going in **3-1**. There was a push in the back down by our right back area but the ref ignored our pleas, and they threw quickly and crossed for the far post which saw a Yate player head powerfully back across goal and in **4-1**. For the next ten minutes we were very flat, deflated by that contentious goal, but then a big throw by Callum saw everyone miss it as it bounced across goal, and **Bryn** was at the back post the hit it into the top of the net and visibly lift the team **4-2**. Josh was then fouled as he attacked into their half, so **Callum** went for it, the ball dropping right into the left corner **4-3**. We tried in the last five minutes to get the equaliser, but time just ran out.

FULL-TIME: YATE 4 FRY 3

<p>Man of the Match – Chosen by Andy for excellent play and effort – Aaron & Max</p>
--

*Afterthoughts.....
I felt that the referee made some poor decisions, but in fairness it was both ways, something that the Yate manager agreed with. What disappointed me today was the way we went flat after their fourth goal. We have showed that we can score against anyone, and even when losing to top sides, so to lose faith was a bit of a let down. Then, when we did get one back we were up and flying and could have got a point. I'm not saying that we would have scored in that ten minute spell, but who knows what effect that could have had on the game if we had kept our belief?*
